Subject No. 303.

Improvement of the tank in the Lakshmisagara village.

Summary of discussion.—The tank of Lakshmisagara village in the Yeldur Hobli was repaired by the D. P. W. at a cost of Rs. 12,000, and though the tank is in good order, it does not receive sufficient supply of water owing to the alteration in the position of the bund made at time of the repair. By such alteration the usual supply to the tank has been cut off. The tank has an irrigable *atchkat* assessed at Rs. 1,000, of which only a portion yielding Rs. 400 is under cultivation, the remainder lying waste for want of water. The old feeders should be restored, whereby both Government and raiyats would be benefited.
